Activity

Well ✏️

Good usage of github for tracking what's needed to be done ✏️

Good communication ✏️

Better efficiency and sorting through tasks set up on github ✏️

Dealing well with merging issues. ✏️

Identification of client's needs ✏️

Not so well ✏️

Some differences in how the website works in local environment and on cloud when it comes to adding new functionalities to the website . ✏️

Management/Client meetings improved in terms of utilising the time, however still could improve communication with them, e.g. asking questions ✏️

New Ideas ✏️

Updating more on each other's progress/ difficulties ✏️
